

East Gloucester

WHILE the summer appears to be slipping by while we are waiting for summer weather the throngs have come to this section on schedule time. All the hotels are having as good patronage as at any time for a similar period and the season here has shaped early for success despite adverse weather conditions.

A. H. Buhler came to this city some 27 years ago and almost constantly during that time has been painting for the most exacting connoisseurs and merciless critics, the Gloucester fishermen, his paintings of these modern vikings, both ashore and afloat, being known all over this country and Europe. Executed with a fidelity to nature and rare insight, the verdict of this uncompromising jury, critical to the most minute detail, has placed him in the forefront of the painters of the Gloucester fishermen.

Mr. Buhler lives at Rocky neck practically all the year around and knows Gloucester in its every mood, calm and storm. The same regarding the fishermen themselves. Ashore or afloat, a volunteer crew launching a lifeboat on the "back shore" to rescue the crew of an imperilled coaster, hauling the trawls on the ocean bank in fog and sunshine, the helmsman at the wheel of a fishing craft; old fishermen mending nets or talking politics in a fish shed and many similar themes gained from actual observation, he excels in a line in which there are many master craftsmen on Cape Ann.

His latest depicts two of the crew of a mackerel seiner at the wheel on the fishing grounds looking for a "school" of mackerel. These fish play on the surface and make their presence known by a dark "v" shaped streak on the waves, the leaders at the apex, in the same formation as wild geese fly. While the regular lookout is stationed at the masthead to secure a wider observation, these helmsmen are also on watch, for on their keen scrutiny the success or failure of the voyage may depend. The two are types; perhaps father and son, true to life for Mr. Buhler makes voyages to the grounds with these men to secure his material. It is one of the best of the many things he has done in recent years. He is a hard worker up before dawn and in the field late at dusk in order to get the needed effect and touch. He finds much pleasure in teaching and usually has a large number of pupils. Genial and approachable to a degree the interested visitor always is cordially received at his Rocky neck studio.

Miss Katherine Groschke, a guest at Merrill Hall, is a celebrated pianist from St. Louis and is a great acquisition to the house as she is ever generous in entertaining the guests with her delightful playing.

Miss Frances N. Tompkins of Brooklyn is a musician of rare charm and her playing is greatly enjoyed by the guests of the house.

Miss Dorothy Shanahan from Grand Rapids, Mich. is a lady of many accomplishments, being a fine musician, painter and an accomplished dancer. Her specialty

THE wild roses of Cape Ann have been celebrated in story and song and this is now their season. The rains have caused them to grow luxuriantly. They never looked more beautiful or diffused a more grateful fragrance than at present. The roadside and moor-

WITH the middle of July the season here is well apace. Cottages and hotels are well filled; more so at this season than has been the case for several years. Withal the season is quiet outwardly. The beach sports and the horse shows of other days that livened up matters are things of the past and nothing has taken their places. However, the rainy season, a duplicate of that of this time last year, is not conducive to out door activities.

The C. A. Potters with their daughters Miss Dorothy Potter of Chestnut H. Philadelphia who are well known in N. Shore circles are again at the Oceanside the summer.

Miss Emily Gray of Boston who has made Magnolia her summer home for many years will this season stay at the Aborn.

Mrs. F. K. M. Rehn with her niece Miss Bessie Hunting who have been the guests of the Charles Fosters at Freshwater Cove came to Magnolia Saturday and opened the Sea Reaches for the season.

Mrs. Isaac T. Lombard who has made Magnolia her summer home for 30 years with Mrs. Haass of Chicago, are established for the season at the Oceanside.

John Allyn and family of Berkeley St., Cambridge have opened their cottage on Magnolia Ave. for the season.

The J. D. Cox's of Cleveland have arrived for the season in the Winslow cottage.

Mr. and Mrs. George A. Upton who have spent the winter in the south departed yesterday for Edgartown where they will spend July.

The swimming pool and club house were informally opened on the Fourth. Luncheon and tea was served in the afternoon by the attendants of the club.

Mrs. Edward Sullivan is again at the Adams cottage, Bowlder Ave.

Nancy T. Frazer-Campbell of Weston has the house in Summer St. occupied last season by Max L. Talbot.

F. L. Guild of Boston has taken the Thornberg cottage on Norman Ave. for the season.

Mrs. C. C. G. Thornton who has made Magnolia her summer home for many years was among the early arrivals. Her home is in Magnolia Ave.

Mrs. J. Wingate Thornton is in her "New House," Magnolia Ave.

Well known Magnolia residents of years standing are the Rev. Dr. Charles Wadsworth and family of Overbrook, Philadelphia. Their house is in Oakes field.

J. Harrington Walker and family of Detroit are domiciled in their beautiful home "Rockledge," Shore Rd.

Mrs. M. G. Walsh of Lake Helen, Fla., has opened Willow cottage for the season.

Mrs. A. Octavia Wilkins has opened the "Villa," Hesperus Ave.

Mr. and Mrs. H. H. Stevens who have made Magnolia their summer home for many years are again at their Summer St. residence.

John J. Rowe of Cincinnati who had the Wilkins cottage last year is again located at that place for the season.

TO ADVERTISERS

THE CAPE ANN SHORE, now in its twentieth consecutive season, is the only summer resort publication on Cape Ann. It reaches every section of the cape, and is the only means of communication of the kind between the merchants and the summer residents. Therefore its value as an advertising medium is self-evident. It contains each week a full and complete account of the social happenings of the summer resort section. It occupies a place by itself in the advertising field, reaching the most profitable customers along the North Shore. Advertisers should remember these facts.

The Wars

It is now two years since the terrible cataclysm in Europe was precipitated. The collapse of the German-Austrian offensive since the Allies began their grand drive within the past three weeks has lead to the hope of a speedy peace.

But this is by no means assured. Austria and Turkey are apparently willing to blow up the sponge at any time but are prevented by Germany, but their finish is in sight. By Christmas the Russians may be in Constantinople or probably Vienna.

But the Germans on the defensive are capable of putting up a stubborn fight. Gettysburg rang 12 for the Confederacy but Richmond was not reached until two years after.

The Allies are bent on doing the job thoroughly and will get to Berlin if possible. They mean to impose the same terms as Grant imposed at Appomattox, unconditional surrender. To do this will require at least one more year of fighting making the struggle round out the three years set down at the outset by Kitchener. There will be no draw.

Unlike the Spanish-American war there has been no perceptible effect on the summer resort business of the New England seaboard. Then it was feared that a bombardment of any part of the shore might ensue and the result was apparent in the falling off of patronage. But evidently there appears to be supreme confidence that the Grand Fleet can keep the Germans bottled up and away from these shores if it was ever the intention of the Germanic powers to send their ships here and have a reckoning for offences real or fancied.

The Mexican navy of one or more boats being sunk in a harbor at last accounts little is to be feared from this source. The fact that Uncle Sam will no longer stand the nonsense of the rival chieftains of the country appears to have percolated into their craniums and the result is that a wholesome fear of what is coming will put them on their good behavior. The probability is that there will be no war but that a strong Precautionary force, if the term may be used will be stationed near the border for some time for use in emergencies. Washington appears to have the situation in hand and is dealing with it as satisfactorily as can be expected in view of the chaotic conditions which have prevailed since the death of Diaz. The trouble with Mexico is that a second Diaz has not appeared to control the situation.

A Public Landing

For years yachtsmen and naval men have complained of a lack of landing facilities here as contrasted with other seaports the greater part of which furnish gratis facilities of this character. Here the matter has been left to uncertain private initiative. Many yachts and some of the naval vessels visit the port during the season and leave much money among the business men. The feeling of dissatisfaction among these visitors had become so pronounced at the lack of adequate landing facilities that there has been a concerted disposition to give this port the go by.

The Municipal Council, however, has taken the matter in hand and promises to remedy this short-coming. While much money has been spent in improving the thoroughfares leading into the city this essential matter has been overlooked.

The city fortunately possesses, probably the best located place for this purpose along the whole harbor front—the Washington St. town landing. It is situated at the head of Harbor Cove in a basin which when, dredged, will furnish just the accommodations needed and no place affords better shelter, safe at all times.

It is proposed to develop this landing, secure adjoining property if needed, have a channel dredged to it, erect a pavilion with adequate landing floats, well lighted, so that it will be accessible at all times with lockers, for the storage of oars and other articles all under the direction of a competent caretaker.

This, when completed, will prove a convenience to the numerous and constantly growing motor boat fleet in addition to the visiting yachts and naval vessels. Since the dredging of the Annisquam river permitting passage at all times and the general acquisition of motor boats by summer residents this form of transportation for trips to this city for the purpose of purchasing goods has become more popular. The fact that adequate landing facilities will be provided will stimulate this practise and no doubt redound to the advantage of the business men of Main St. It will also improve a locality where improvement was needed.

Every person operating a motor vehicle shall bring the vehicle and the motor propelling it immediately to a stop when approaching a horse or other draft animal being led, ridden or driven, if such animal appears to be frightened and if the person in charge thereof shall signal so to do; and, if travelling in the opposite direction to that in which such animal is proceeding, said vehicle shall remain stationary so long as may be reasonable to allow such horse or animal to pass; or, if travelling in the same direction, the person operating shall use reasonable caution in thereafter passing such horse or other animal. In approaching or passing a car of a street railway which has been stopped to allow passengers to alight or embark, the operator of every motor vehicle shall slow down and if it be necessary for the safety of the public he shall bring said vehicle to a full stop. Upon approaching a pedestrian who is upon the travelled part of any way and not upon a sidewalk, or where the operator's view is obstructed either upon approaching an intersecting way or a curve or corner in a way, every person operating a motor vehicle shall slow down and give a timely signal with his bell, horn or other device for signalling.

Provided, that in the thickly settled parts of a city or town no bell, horn or other device for signalling shall be sounded so as to make a harsh objectionable or unreasonable noise, except in the case of fire and police department vehicles and ambulances; and provided, further, that no operator of any motor vehicle shall at any time permit any unreasonable amount of smoke to escape from said motor vehicle, nor shall said operator at any time permit said motor vehicle to make any unnecessary noise, by cutting out the muffler, or otherwise.

The driver of any motor vehicle on any highway approaching a crossing of ways, shall slow down and keep to the right of the intersection of the centres of both ways, when turning to the right, and shall pass to the right of the intersection of the centres of said ways before turning to the left.

Per Order, CHARLES S. MARCHANT, City Marshal.

Keeping in Touch

When the up-to-date man
wants to take a day off, a
week-end trip, or even a
month's vacation, he
doesn't sigh "to get away
from a telephone."

Like the late E. H. Harri-
man, he makes the tele-
phone a servant, not a
master; uses it when he
deems it desirable to keep
in touch with business
affairs; and refuses to let
it intrude upon his leisure,
without warrant.

One talk daily to the
office or factory, and—for
a limited period, at least,—
the rest of the day belongs
to the man who has the
right kind of an organi-
zation.

There will be no toll charge on a
Particular Party Call if you are not
connected with the person whose
name you have given to the Toll
Operator.
